Hassan Ahmed

Senior Software Engineer · Full-Stack

hassanahmed2241@gmail.com | linkedin.com/in/hassanahmed-swe | Lahore, Pakistan

PROFILE

Senior Software Engineer with 5 years of experience building, scaling and modernizing a production SaaS platform used by **1,000+ live agencies**. Full-stack across Ruby on Rails, React and AWS, with hands-on ownership of performance optimization, HIPAA compliance, cloud infrastructure, CI/CD, third-party integrations and large-scale data migration. Currently leading a team of 5–6 engineers and driving the backend re-architecture of the platform onto NestJS.

SKILLS

Backend: Ruby on Rails, NestJS, Sidekiq, REST APIs
Frontend: React
Database: PostgreSQL, schema design, data migration
Cloud (AWS): ECS, Elastic Beanstalk, S3, IAM, Bedrock
DevOps: GitHub Actions CI/CD, New Relic (APM)
Integrations: Stripe, Twilio, SendGrid, Zapier, Intulse, Employee Navigator
Security: HIPAA compliance (application & infrastructure)
AI / LLM: AWS Bedrock (LLM summarization)

EXPERIENCE

CodingCops

Oct 2021 – Present

Senior Software Engineer, Feb 2025 – Present
Software Engineer, Feb 2022 – Feb 2025
Associate Software Engineer, Oct 2021 – Feb 2022

NextAgency (nextagency.com) — agency management SaaS platform serving 1,000+ live agencies. Rails · React · PostgreSQL · Sidekiq · AWS

Performance & Architecture

- Re-engineered the main dashboard, cutting page load time from **10–15 seconds to 2–3 seconds (~80% faster)** for every agency on the platform.
- Integrated **New Relic** application performance monitoring to track response times and surface bottlenecks in production.
- Leading the backend of the platform migration to a new stack: **redesigned the database schema** and built the pipeline that migrates live customer data from the legacy model to the new one.

Cloud, DevOps & Security

- Made the application **HIPAA compliant** end to end, covering both application code and AWS infrastructure configuration.
- Helped move production workloads from **AWS Elastic Beanstalk to ECS** tasks, and replaced manual releases with automated **CI/CD pipelines on GitHub Actions**.

Integrations, Data & AI

- Built payment, communication and HR integrations with **Stripe, Twilio, SendGrid, Zapier, Intulse and Employee Navigator**.
- Wrote custom migration scripts to onboard agencies by moving their data from previous portals into NextAgency.
- Integrated **AWS Bedrock** to add LLM-powered summarization features to the product.

Leadership

- Lead a team of **5–6 engineers**; own client communication, technical planning and code reviews.
- Mentored **4–5 engineers**, several since promoted from Associate SE to SE and Senior SE.

EDUCATION

MS Computer Science — UET Lahore (2025 – Present)
BS Computer Science — GC University Lahore (Graduated 2021)

INTERNSHIPS

Systems Limited — Cloud & Infrastructure Intern (2021)
KICS, UET Lahore — Intern (2019)
